

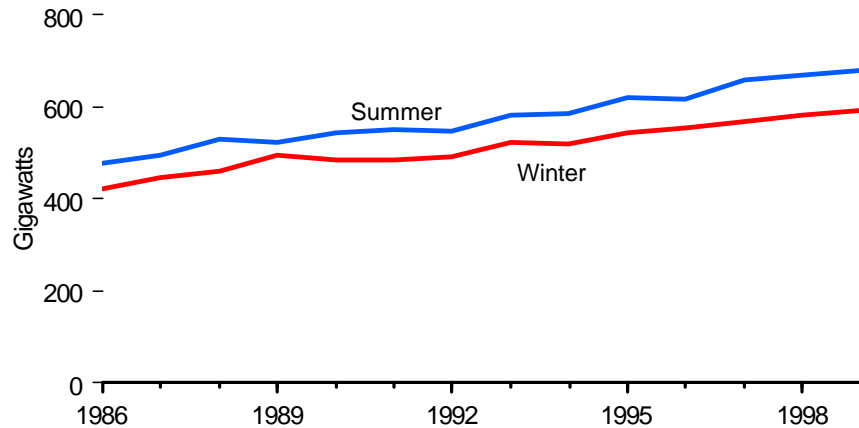

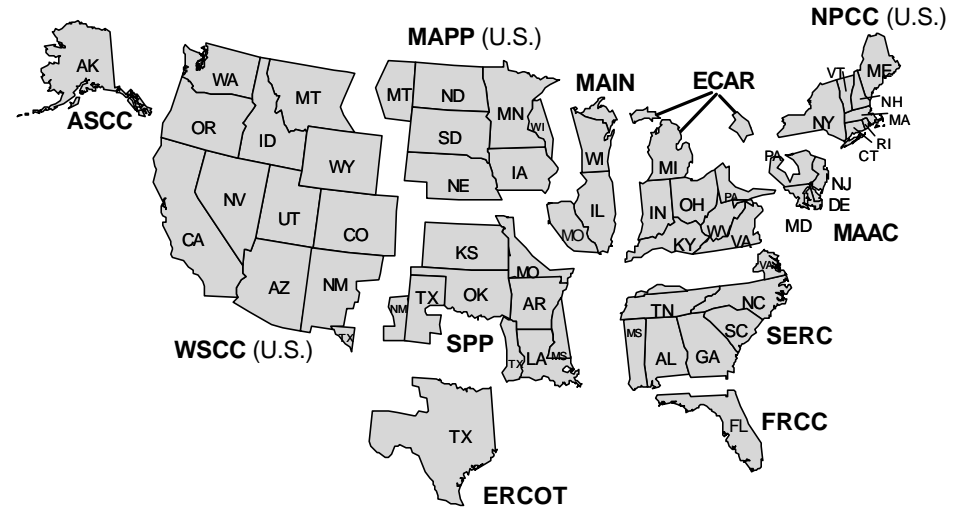

Figure 8.11 Electric Utility Noncoincidental Peak Load

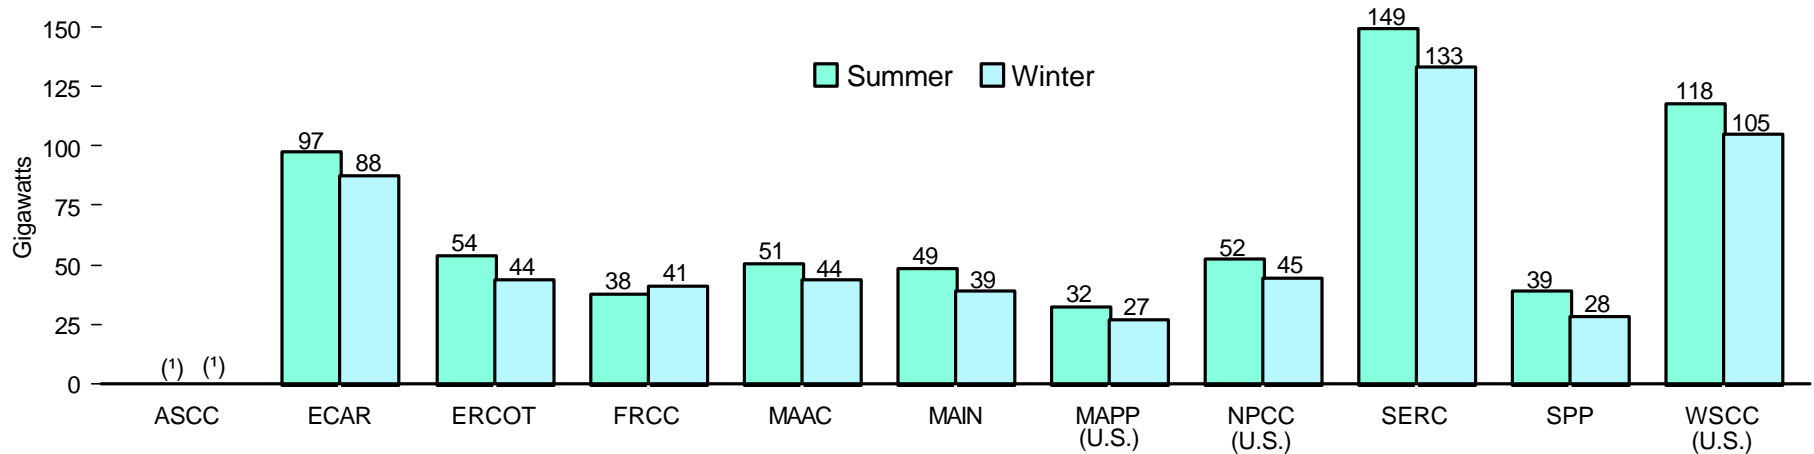

In the Contiguous United States, 1986-1999

North American Electric Reliability Council Map for the United States

By NERC Region, 1999

¹ Data for ASCC (Alaska) were not filed for 1999.

Source: Table 8.11.

Notes: • Noncoincidental peak load is the sum of two or more peak loads on individual systems that do not occur at the same time interval. See Glossary for information on North American Electric Reliability Council (NERC). • Because vertical scales differ, graphs should not be compared.
